

Pre-Natal CAWEM Expansion (CWX) Now in 14 Counties

This training will cover

- Overview of Pre-natal CAWEM Expansion Program
- “CAWEM Plus” benefit package
- Eligibility
- CM system coding & notices

Pre-natal Expansion Program extends to seven new counties

- Began in 04/01/2008 in Multnomah and Deschutes counties
- Five additional counties were added 10/01/09. These counties were: Benton, Clackamas, Hood River, Jackson, Lincoln*
- Lane County was added 01/01/11
- Columbia, Crook, Douglas, Jefferson, Morrow, Union and Wasco counties are being added to the program effective July 1, 2011

*Due to budget constraints, the program was ended in **Lincoln County** in December 2009.

Pre-natal CAWEM Expansion Program overview

- Combines federal (CHIP) monies with county & state funding
- CAWEM Plus benefit package for pregnant CAWEM women
- CAWEM Plus is primarily to provide pre-natal benefits
- CAWEM Plus benefits end the day after the baby is born

Pre-natal CAWEM Expansion Program

- Covers almost all OHP Plus medical services during pregnancy
- Services that are not covered:
 - Death with dignity
 - Sterilization
 - Therapeutic abortion
 - Hospice

Clients not in managed care

- CAWEM Plus clients cannot be enrolled in managed care
- CAWEM Plus clients will be placed on an open card
- CAWEM Plus clients can still see their regular doctor if the doctor accepts the open card

CWX coding

- When approved, use both CWM and CWX case descriptor and CWX need/resource code with end date
- CWX coding tells MMIS to provide CAWEM Plus
- CWX N/R date is based on due date.
- If we're not notified timely that the pregnancy has ended, the CWX N/R date triggers CM close (85B) or reduction (84B) notice

CWX coding example

- Morena is pregnant and due 06/10/11. The DUE date is entered as DUE 06/11. Since 06/10/11 is before 06/15/11, the CWX end date is 06/11.
- If Morena were due 06/20/11, the DUE date would be 06/11, but the CWX date would be 07/11 to provide time for a 10-day notice.

CWX coding for 06/10/11 DUE date

Fast Path		EB	Case Nmbr LS0469		Next Per

UB					0	0				A			U			
C/D															Action N Registered: N	
N/R										N/R						

CWX eligibility process

- Once the CWX coding is added, the CM system automatically sends a 2D CWX approval notice
- The approval notice is also a reduction notice
- No additional notice is required if DHS is notified timely.

CWX eligibility process, continued

- A CM system notice is sent in the 8th month of pregnancy reminding mother her benefits will be reduced to CAWEM the day after her baby is born
- The day after the baby is born, the mother's benefits should be reduced to CAWEM (see next slide for specific coding information)
- Baby is AEN
- 5503 will add the AEN if they are notified of the birth instead of the branch

Coding changes when baby is born

- Use a “medi” action on the UCMS screen to add the newborn and reduce the mother to CAWEM. The UCMS effective date is the newborn’s date of birth
- Add newborn with a start date of DOB and AEN for one year
- **Change mom’s start date to match the newborn’s DOB. The CM system will reduce her benefits to CAWEM effective the next day**
- Remove the CWX case descriptor and need/resource code from mom (leave the DUE date)

Example of CWM coding after the baby is born

```

What happens if DHS/OHA is not notified of birth?

- CWX need/resource end date will trigger CM close (85B) or reduction notice (84B)
 - Won't happen often
- Except for some MAA/MAF CWX clients, the mother's medical will be reduced to CAWEM the first of the next month after the CWX end date

MAA/MAF CWX clients

- If mom is MAA/MAF and there are other children in the household, benefits are reduced to CAWEM effective the first of next month
- If mom is MAA/MAF and there are no other children in the household or mom is OPP, benefits are closed effective the end of the month

Example of CWX automatic reduction notice

- Maria is a pregnant CAWEM MAA client with other MAA children; the new baby is due January 10, 2012
- DUE and CWX N/R date is 01/12
- If DHS/OHA is not notified of birth, 10-day reduction notice is automatically sent reducing Maria's medical to CAWEM effective February 1, 2012

Example, continued

- Client still has 60 days protected CAWEM eligibility based on the DUE need/resource date
- No “due process” for other benefits because it’s already after when we should have been notified of birth
- Restore benefits to CWX if she contacts branch and she’s still pregnant

Example of CWX automatic close notice

- Angela is a pregnant CAWEM OPP client; the baby is due December 23, 2011. DUE is 12/11
- December 23 is past the 15th of the month, so the CWX need/resource end date is 01/12
- If DHS/OHA is not notified of birth, 10-day close notice (85B) will automatically be sent to end Angela's medical effective January 31
- If Angela contacts the branch and she is still pregnant, restore her benefits to CWX and add the DUE need/resource back onto her CM case

CM system conversion for Columbia, Crook, Douglas, Jefferson, Morrow, Union and Wasco counties implementation

- Pregnant CAWEM with DUE 07/11 or later will be automatically converted to CAWEM Plus benefits during June EOM processing
- CWX case descriptor and need/resource codes will be added automatically
- CWX need/resource date will be added to match DUE need/resource date
- For FIPS codes 009, 013, 019, 031, 049, 061 and 065

Conversion issue – CWX end date

- Report (WCM6300R-A) will be available on View Direct around July 1 showing all cases that were converted to CAWEM Plus
- 5503 will work report to ensure correct CWX date is coded
- If due date is after the 15th of the month, the CWX need/resource code will need to be manually changed to the next month

What happens if pregnant CAWEM client moves into area?

- Report of new eligibles is generated daily listing every CWM pregnant client who has moved into one of the 14 CWX counties
- 5503 will work report and add coding to issue CAWEM Plus benefits
 - 5503 will use MEDI action to add CWX coding effective date of transfer action

What happens if the CAWEM Plus client moves out of area?

- CAWEM Plus is only for residents in one of the 14 counties
- No longer in Pre-natal CAWEM Expansion Program if they move out of county area, even if they are still pregnant when they move
- Even though CWX has to end, they will continue to have protected CWM eligibility
- 2 day process to transfer case

CM actions to transfer out, Day 1

- Send the 10-day CMRCWXR or SPRCWXR notice of reduction (from CAWEM Plus to CAWEM)
- On the CM system:
 - First day, enter a Compute action on the UCMS screen effective the first of the next month
 - Second day, enter the change in address and remove the CWX coding

What happens when the client's pregnancy ends before their DUE date month?

- The worker ends the client's CWX benefits for the 1st of the month after the 10-day notice period and sends the **CMRCWXR** or **SPRCWXR** notice of reduction
- The client remains on CWM through their protected 60-day post partum eligibility period

CM actions when pregnancy ends early

- Send the **CMRCWXR** or **SPRCWXR** notice of reduction
- Enter a Compute action for the first of the month following 10-day notice period
- Remove the CWX case descriptor and need/resource
- Update medical start date to the first of the next month Update DUE need/resource to match the month/year the pregnancy ended

CM notices

- **CM 2D** *Pre-natal Approval Notice*
 - Automatically sent when adding new CAWEM Plus client
- **CM 01G** *CWX Benefits End – Advance Notice*
 - Automatically sent the month before the DUE need/resource end date (8th month of pregnancy)
- **CM 84B** *County Pre-natal Reduction*
 - Automatically sent based on CWX need/resource end date when DHS/OHA is not notified timely of pregnancy ending and there are other children in the household receiving MAA/MAF
- **CM 85B** *County Pre-natal Close*
 - Automatically sent based on CWX need/resource end date when DHS/OHA is not notified timely of pregnancy ending and mom is receiving OPP

CM notices, continued

- **CMRCWXR or SPRCWXR – CWX**
Reduce – Pregnancy ends or moved out of county
 - Available on notice writer and sent by the worker when a CWX client moves out of the county or the pregnancy ends prior to the month indicated by the DUE need/resource end date

NoticeWriter notices, part 1

Example: Maria is due September 15, however, we're notified in July that she lost the baby. Send the 10-day CMRCWXR reduction notice and compute to remove CWX coding the first of the month after the 10-day notice period. Update the DUE need/resource end date to 07/XX

- Maria will continue to receive CAWEM through her 60-day protected eligibility period

NoticeWriter notices, part 2

Example: Petra notifies us she's moving to Woodburn to be with her mother. Send 10-day CMRCWXR reduction notice.

Compute to remove CWX coding the first of the month after the 10-day notice period and to change the address and branch

-Petra will continue to receive CAWEM through her 60-day protected eligibility period
