WORK VERIFICATION POINTS UPDATES

JUNE 2023

### Work Verification Point Update – JOI for JOBS

We are getting close to the final stages in development of a web-based application to support JOBS activities in local districts. This new app will be known as JOBS Outcome Indicators or JOI.

#### What is JOI?

- Web-based System
- JOI has many supporting features for Family Coaches and JOBS Contractors:
  - Ability to send electronic referrals and supporting documents to JOBS program contracted partners
  - Ability to capture how participants are doing while engaged in their JOBS contracted services
  - It uses/prefills participant data from the ONE system
  - JOI will include a dashboard to support referral and service coordination

TRACS will remain the system of record for JOBS personal development plans, narrations, and attendance.

This JOI application has been in development for some time. Thank you to those of you, your colleagues as well as many of our JOBS partners who have been involved in developing and reviewing materials for JOI. Over the next few months there will be more opportunities for your involvement.
