Interstate Compact on the Placement of Children Border Agreement
between the Washington State Department of Social and Health Services
and the Oregon Department of Human Services

This agreement is between the State of Washington, acting by and through Kevin Quigley, Secretary of the
Washington Department of Social and Health Services, and the State of Oregon, acting by and through Erin
Kelley-Sioli, Director of the Oregon Department of Human Services.

The parties to this Agreement recognize the need for more timely and efficient interstate placements of children
between the states of Washington and Oregon. The parties also recognize that the delays commonly experienced
by the State's public child welfare agencies when seeking to place children with families located across the border
shared by the two States can postpone the placement of children with their own family members and can nega-
tively impact children's overall well-being.

The purpose of this agreement is to establish an expedited process to assess the safety and suitability of prospective
caregivers who have an existing relationship with a child but live across the state border from where children
in need of placement reside. When appropriate, caregivers will be provisionally approved after an agreed upon
expedited assessment process, and child placement will proceed while a more comprehensive evaluation of the
caregivers and their home is completed.

The parties acknowledge the need for better and more effective interstate cooperation to address this issue and
to improve the lives of the abused and neglected children in the care and custody of the two States' public child
welfare agencies. This Agreement is intended to address the problem by increasing the timeliness of interstate
placements of children within a defined geographic area encompassing specific counties on both sides of the bor-
der shared by the two States and reduce the placement of children in foster homes where children do not know
the caregivers. This Agreement will also help ensure the continued safety and well-being of the children after
placement. This Agreement is intended to conform to the articles and regulations of the Interstate Compact on
the Placement of Children, and terms used herein shall have the same meanings as in the articles and regulations
of the Interstate Compact on the Placement of Children (herein referred to as the "ICPC" or "the Compact"),
except as otherwise defined in this Agreement below.
