Purpose

413-130-0400

The State of Oregon administers the Assisted Search Program which permits a confidential search for certain adult members of an individual's birth family. This program recognizes that while some parties to adoption have a strong desire to obtain identifying information, others do not. This program is voluntary for all participants and fully recognizes the right to privacy and confidentiality of all parties to an adoption. Persons contacted under this program are directed to the voluntary adoption registry where exchange of identifying information can be authorized. Licensed Oregon adoption agencies conducting assisted search programs are subject to the policies and procedures established under these rules, whose purpose is to set forth criteria establishing eligibility standards, standards of conduct and search procedures, and fees to be paid by persons requesting assisted searches.
