**Message:** A computer glitch impacted the mainframe child care deduction table resetting it to the 200/175 limits prior to October 1, 2008. This resulted in the child care deduction being limited for the February 2009 benefits. 1870 cases are coded with the CC or CCP deduction. Is not known how many received the reduced benefits.

OIS has fixed the problem so any new calculations or updates will be correct. OIS plans to run a special process on Wednesday, February 4, 2009, that will correct the CC/CCP deduction and issue a supplement.

The correction will take place centrally. However, OIS says any supplements already issued will not be updated by this special run.
