Message:

APD is piloting a 12-month project, featuring the [GrandPad®](#) tablets and services, with a select group of individuals receiving Medicaid In-Home Services per [OAR 411-030](#). The purpose of this pilot is to use GrandPad tablets to reduce social isolation and loneliness to selected individuals in the pilot by increasing their connection and engagement with family and friends.

GrandPad tablets come preloaded with features to help individuals stay connected by sharing photos, making voice and video Zoom calls, participate in community activities, and more. GrandPad staff provides 24-hour customer service through the tablet for individuals. APD/AAA staff will not be expected to provide any support for the tablet.

A letter that introduces individuals to the GrandPad pilot is being mailed to approximately 2,000 individuals statewide who receive Medicaid In-Home Services and have been identified with higher social isolation needs. The letter includes a survey for individuals to complete and return to Central Office (CO) if the individual is interested in participating in the pilot (no postage needed). Based upon the responses received, 375 individuals will be selected to participate in the pilot, receiving a GrandPad tablet through the mail at no cost to the individual.

The letter and survey (which has been translated into multiple languages) is at the end of this transmittal. Please note, individuals are being asked to return the survey by October 31, 2022, which is a short turnaround. However, CO will accept responses through November 4, 2022, and will provide a list of individuals chosen to be part of the pilot to each local office.

CO is working with GrandPad to coordinate the delivery of the GrandPad devices and will assist individuals participating in the pilot to receive the information and support they need to successfully use the GrandPad tablet.

Dear ,

The Aging and People with Disabilities (APD), a program of the Oregon Department of Human Services (ODHS) is excited to announce the creation of a 12-month long program for a select number of people who receive Medicaid in-home services.

This program uses a modern technology, a GrandPad tablet to help people who often feel alone in their homes experience more regular and meaningful contact with their loved ones.

The GrandPad tablet uses voice and video calls to help individuals join family and friends anywhere in the world for daily conversations, birthday parties, community activities, and much more. All that is needed to use a GrandPad tablet to work is a reliable cell phone connection. No internet connection is required.

There are a limited number of GrandPad tablets being made available, free of charge, for individuals who are selected to participate in this program. To be considered for the GrandPad program, please fill out the enclosed survey and mail it back to APD by **October 31, 2022**. The survey does not need an envelope or postage. Just fold it as it already is folded, tape it shut where indicated and put it in the mail. Participants in the GrandPad program will be selected based on the information from their survey, program criteria, and the number of responses mailed back to APD.

For those individuals selected to participate in this GrandPad program, the tablet will be shipped to their home free of charge around December 1, 2022. If you are chosen to participate in the GrandPad program, you will be contacted and given more information about how to use the GrandPad tablet and services.

Sincerely,

APD Long-Term Services and Supports

Survey Questions for Medicaid In-Home Consumers

(Please circle the answer that best describes your experience for each question below)

1. I am content with my friendships and relationships.
Strongly Disagree Disagree Neutral Agree
Strongly Agree Don't Know
