

## Discovery Provider List - As of February 2018

This is not a comprehensive list of Discovery Providers; it is a list of provider agencies and independent contractors(ICs) that submitted their training information to ODDS. Any provider agency or IC that meets the qualifications in AR-15-004 and/or PT-14-029 may provide Discovery. Some of the provider agencies and ICs have employment data on the ODDS website. When available, we have listed data for competitive, integrated employment as of September 2017. Please note, in this document, NR means the organization did not report this data. Data rows are blank when there is not data on the website for the provider or IC. Data is only one piece of information. Conversations/interviews with Discovery providers are also important, see "The Selecting Employment Providers Guide" for conversation ideas. Employment data is provided per county. For example, ABC Provider may serve 10 people in Multnomah County and support 5 people who are employed individual employment the community, so in Multnomah County, they would have a 50% employment rate. This same provider may also offer services in Clackamas County, but may not currently support people who live there, so their data for Clackamas County would show zero in each of the columns. For each provider's statewide data, click the Employment Data Link below. This link will also show you if the provider has capacity to serve people right now or if they have a waiting list.
