RULE SUMMARY

The Department of Human Services (Department) is proposing to adopt the rules for in-home care agencies providing Medicaid in-home services in OAR chapter 411, division 033 to:

- Assist the Department to move the in-home care agencies from Medicaid contractual agreements (statement of work) to "provider enrollment applications and agreements".
- Establish types of services in-home care agencies (IHCA) can provide, provider enrollment, payment, and other requirements to be a Medicaid IHCA provider.
- Ensure in-home care agencies (IHCA), continue as one of the Medicaid in-home services provider options, provide services to maximize independence, empowerment, dignity, and human potential through the provision of flexible, efficient, and suitable services. In-home services fill the role of complementing and supplementing an individual's own personal abilities to continue to live in their own home.

The Agency requests public comment on whether other options should be considered for achieving the rule’s substantive goals while reducing the negative economic impact of the rule on business.

Written comments may be submitted via e-mail to Kimberly.Colkitt-Hallman@state.or.us or mailed to 500 Summer Street NE, E48 Salem, Oregon, 97301-1064. All comments received will be given equal consideration before the Department proceeds with the permanent rulemaking.

Need for the Rule(s):
The Department needs to adopt rules in OAR chapter 411, division 033 to allow the Department to discontinue the process of having contracts for all Medicaid in-home care agency providers and move to a "provider enrollment application and agreement."

The proposed rules do this by moving the Medicaid contract language into administrative rule, and set the standards an in-home care agency must meet in order to be a Medicaid in-home service provider and to enter into a "provider enrollment application and agreement" with the Department.

Fiscal and Economic Impact:
Statement of Cost of Compliance:
1. Impact on state agencies, units of local government and the public (ORS 183.335(2)(b)(E)):
The Department estimates that adopting OAR chapter 411, division 033 will have the following fiscal and economic impact:
State Agencies: The Department estimates there will be no fiscal or economic impact to state agencies. The Department is just changing the process from a contractual process to a "provider enrollment application and agreement".

Units of Local Government: The OAR is requiring a quarterly submission of consumer information to the local Medicaid offices, which may have a slight administrative cost. The Department is unable to determine what, if any, additional costs there may be as this is a new process and data is not available. The Department estimates that the change in business practice and services should not increase after rule is in effect.

Consumers: The Department estimates there will be no fiscal or economic impact on Consumers.

Providers: The OAR is requiring a quarterly submission of consumer information to the local Medicaid offices, which may have a slight administrative cost. The Department is unable to determine what, if any, additional costs there may be as this is a new process and data is not available. The Department estimates that the change in business practice and services should not increase after rule is in effect. Current licensing rules require the IHCA to conduct quarterly monitoring visits by phone or by other electronic means. This quarterly visit’s progress notes will be forwarded to the local Medicaid office.

Public: No fiscal impact

2. Cost of compliance effect on small business (ORS 183.336):
   a. Estimate the number of small businesses and types of business and industries with small businesses subject to the rule:
   There are currently 86 in-home care agencies providing Medicaid services. Of these, 80 may be considered a small business as defined by ORS 183.310.

   b. Projected reporting, recordkeeping and other administrative activities required for compliance, including costs of professional services:
   This rule change would continue the current Medicaid contractual agreements with the In Home Care agencies. Fiscal impact would occur with growth in their agency. The proposed changes impact Medicaid in-home care agencies as described above in the Department’s statement of cost of compliance.

   c. Equipment, supplies, labor and increased administration required for compliance:
   This rule change would continue the current Medicaid contractual agreements with the In Home Care agencies. Fiscal impact would occur with growth in their agency.
   The proposed changes impact Medicaid in-home care agencies as described above in the Department’s statement of cost of compliance.
How were small businesses involved in the development of this rule?
A small business as defined in ORS 183.310 participated on the Administrative Rule Advisory Committee. Small businesses will also be included in the public review and comment period.

Administrative Rule Advisory Committee consulted?:
Yes. The Administrative Rule Advisory Committee included representation from the Department, Oregon Health Authority, Provider Services Unit, Medicaid Long Term Policy Unit, Background Check Unit, Developmental Disabilities Unit, Health Policy and Analytics, Oregon Health Authority/Public Health, Office of Contracts and Procurement Office of Adult Abuse Prevention and Investigations, I.T. Business Supports Unit, Aging and Physical Disability Policy Committee, Aging and Physical Disability District Managers, Area Agency on Aging program supervisors, Oregon Health Care Association, Leading Age Oregon, Long Term Care Ombudsman, Governor’s Commission, State Independent living Council, Medicaid contracted In Home Care Agency Providers.
411-033-0000 Purpose and Scope

The rules in OAR chapter 411, division 033 ensure in-home care agencies, as one of the Medicaid in-home service provider options, provide services to maximize independence, empowerment, dignity, and human potential through the provision of flexible, efficient, and suitable services. In-home services fill the role of complementing and supplementing an individual's personal abilities, so the individual is able to continue to live in their own home.
