STATEMENT OF NEED

The Department needs to amend and adopt rules to comply with HB 3359 (2017). The Department is doing this by editing the rules to add in new competencies/requirements for direct care staff; new facility license types; new medication guidelines; amended civil penalties; rules regarding enhanced oversight and the regulatory framework for regulatory actions; and new training requirements. The Department gathered stakeholders together for a series of Rule Advisory Committee (RAC) meetings and incorporated feedback from those meetings into revisions of rules. Approximately eight meetings were held related to different sections of the bill, and multiple drafts of rule revisions have been sent electronically to stakeholders for their feedback. After the temporary rules were put into place, additional RAC meetings were held to incorporate feedback before finalizing the rules.

FISCAL AND ECONOMIC IMPACT

Statement of Cost of Compliance:

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s).

State Agencies: The Department estimates implementation of this legislation will cost Aging and People with Disabilities approximately \$1,300,000 per biennium. The Department is unable to quantify the fiscal impact regarding the civil penalties due to the newness of the regulations and the lack of available data that is needed to accurately predict an approximate fiscal impact on the Department.

Units of Local Government: The Department estimates there will be no fiscal or economic impact on local governments.

Consumers: The Department estimates there may be minimal fiscal or economic impact on private-pay consumers of long-term care who pay to have medications dispensed in unit-dose packaging as directed by this legislation.

Providers: The Department estimates there may be minimal fiscal impact on providers to provide additional dementia care training as required by the legislation. The Department is unable to quantify the fiscal impact regarding the civil penalties and the costs to providers at this time due to the newness of the regulations and the lack of available data that is needed to accurately predict an approximate number of facilities that may have to pay a penalty.

Public: The Department estimates there will be no fiscal or economic impact on the public.

(2) Effect on Small Businesses:

(a) Estimate the number and type of small businesses subject to the rule(s);

There are currently 531 assisted living or residential care settings. Of these, approximately 30 may be considered a small business as defined by ORS 183.310.

(b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s);

The proposed changes impact providers as described above in the Department's statement of cost of compliance.

(c) Estimate the cost of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

The proposed changes impact providers as described above in the Department's statement of cost of compliance.

Describe how small businesses were involved in the development of these rule(s)?

A small business and representatives of small business as defined in ORS 183.310 participated on the Administrative Rule Advisory Committee. Small businesses will also be included in the public review and comment period.

For purposes of rule, an individual with a 10 percent or more incident of ownership is presumed to have an effect on the operation of the facility with respect to factors affecting the

(~~ed~~) If the owner of the facility is a different entity from the operator or management company of the facility, both the operator and the owner must complete an application for licensure. Only one license fee is required.

(~~de~~) The application shall require the identification of any individual with a 10 percent or more incident of ownership that has ever been convicted of a crime associated with the operation of a long-term, community-based, or health care facility or agency under federal law or the laws of any state. (2) LICENSE RENEWAL. Application for a license renewal must be made at least 45 days prior to the expiration date of the existing license. Filing of an application for renewal and submission of the required non-refundable fee before the date of expiration extends the effective date of expiration until the Department takes action upon such application.

(b) An applicant for license renewal must provide the Department with a completed background check request form for the applicant and for each individual with incident of ownership of 10 percent or more in the applicant when required by the Department. For those who serve the Medicaid population, a background check request form is required for the applicant and each individual with a 5 percent or more incident of ownership, regardless of the individual's effect on the operation of the facility.

(c) A building inspection may be requested at the Department's discretion. The Department may require physical improvements if the health or safety of residents is negatively impacted.

(3) DEMONSTRATED CAPABILITY.

(a) Prior to issuance of a license or a license renewal, the applicant must demonstrate to the satisfaction of the Department that the applicant is capable of providing services in a manner consistent with the requirements of these rules.

(b) The Department may consider the background and qualifications of any individual with a 10 percent or more incident of ownership in the applicant when determining whether an applicant may be licensed. For those who serve the Medicaid population, the background and qualifications of any individual with a 5 percent or more incident of ownership, regardless of the individual's effect on the operation of the facility, may be considered.
